Welcome to ATCC

ARABIAN TECHNOLOGIES CONTRACTING COMPANY

Welcome to Arabian Technologies Contracting Company, your trusted partner in delivering comprehensive solutions for HVAC systems, firefighting systems, fire alarm systems, electrical systems, building management systems (BMS), and testing, adjusting, and balancing (TAB) services. With a commitment to quality and innovation, we ensure your projects are executed with precision and efficiency. Partner with us to experience excellence in design, installation, and maintenance tailored to your needs.

About Company

Arabian Technologies Contracting Company is a leading provider of specialized solutions, offering a comprehensive range of services that include HVAC systems, firefighting systems, fire alarm systems, electrical systems, building management systems (BMS), and testing, adjusting, and balancing (TAB) services. With a strong commitment to innovation and quality, we design, install, and maintain systems that meet the highest standards. Our expertise spans

residential, commercial, and industrial projects, ensuring safety, efficiency, and optimal performance tailored to each client's unique requirements. Backed by a team of skilled professionals and state-of-the-art technology, we deliver excellence in every aspect of our work. Our dedication to adhering to local and international standards ensures reliability and compliance. At Arabian Technologies, we prioritize customer satisfaction by providing solutions.

Vision & Mission

Company Values

We value innovation, quality, sustainability, and customer satisfaction, ensuring excellence in every project. We prioritize safety, reliability, and efficiency, building lasting relationships through integrity, professionalism, and a commitment to meeting and exceeding client expectations.

Our Mission

Empowering clients with innovative solutions that enhance safety, performance, and sustainability in their projects.

- **Innovation:** Leveraging techniques to deliver cutting-edge, tailored solutions.
- **Reliability:** Providing high-quality services to meet project requirements.
- **Collaboration:** Building strong partnerships through transparent communication.
- **Excellence:** Striving for superior outcomes in every project we undertake.

Our Vision

To be a trusted leader in delivering innovative, sustainable, and reliable solutions for modern infrastructure needs.

- **Leadership:** Setting industry benchmarks through high-quality services.
- **Sustainability:** Driving progress with eco-conscious practices for a better future.
- **Growth:** Expanding expertise to address evolving market demands effectively.
- **Impact:** Enhancing communities by creating safe and efficient infrastructure systems.

Innovation: Embracing advanced technology to provide cutting-edge solutions tailored to evolving industry needs.

Quality: Ensuring high standards through meticulous design, installation, and maintenance processes for all systems and services.

Sustainability: Promoting eco-friendly practices and energy-efficient solutions to reduce environmental impact and operational costs.

Customer Satisfaction: Delivering reliable, customized solutions with a focus on exceeding client expectations in every project.

Message From GM

Innovating Solutions, Delivering Excellence

Mohammad Alhamad

General Manager

Welcome to Arabian Technologies Contracting Company (ATCC). As a leading provider of HVAC, firefighting, fire alarm, electrical, and building management systems, we pride ourselves on delivering innovative and sustainable solutions tailored to meet the unique needs of our clients. Our success is built on a foundation of technical expertise, unwavering commitment to quality, and adherence to international standards, ensuring the highest level of performance and customer satisfaction.

Under my leadership, we strive to foster a culture of innovation, collaboration, and excellence. I am grateful for the trust our clients have placed in us and remain committed to delivering projects that contribute to safety, efficiency, and environmental sustainability.

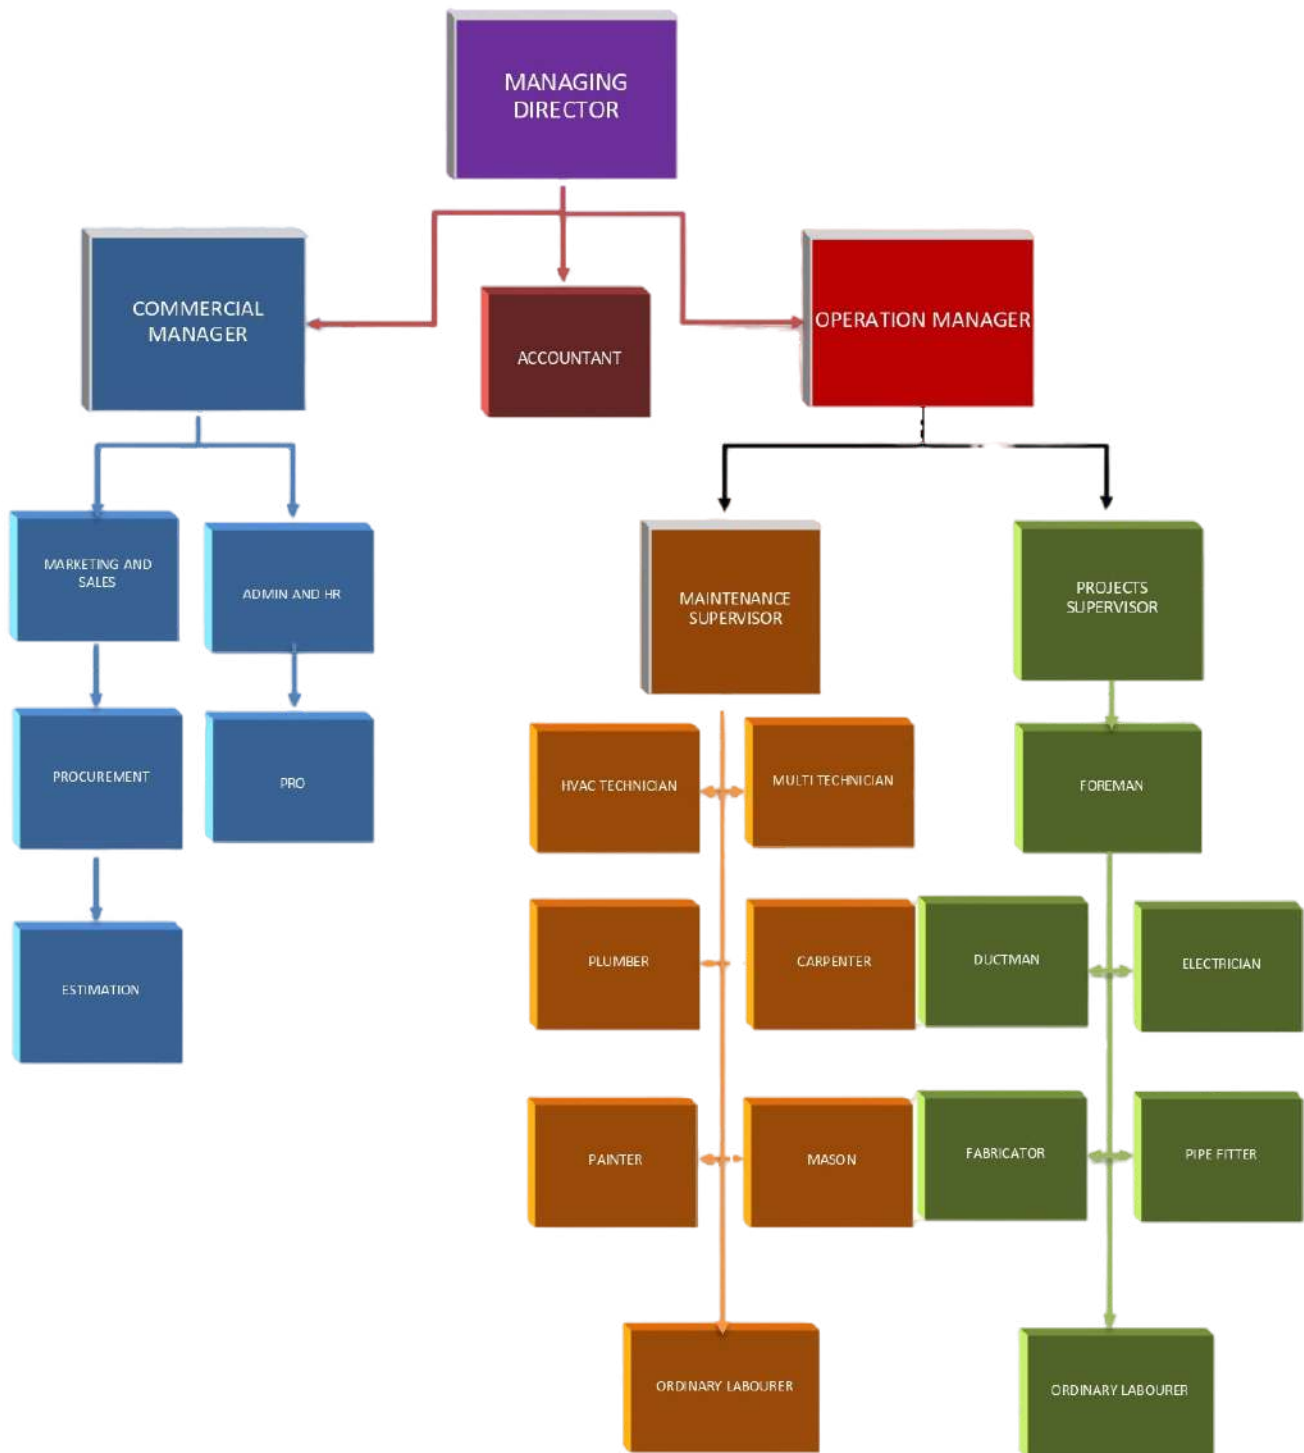

Message from the CEO Eng. Shafaqat Mughal

Fostering Innovation, Excellence, and Sustainable Solutions for Future Success and Development

At ATCC, we understand the importance of trust and reliability in every project we undertake. Our dedicated team works relentlessly to provide cutting-edge solutions that align with industry standards and client expectations. Together, we aim to shape a safer, more efficient, and sustainable future through our comprehensive contracting services.

Organizational Chart

ATCC Quality Policy

At Arabian Technologies Contracting Company (ATCC), we are dedicated to delivering superior products and services that meet and exceed the expectations of our clients. We are committed to maintaining the highest levels of customer satisfaction by continually improving our processes, adhering to international quality standards, and fostering a culture of excellence.

Key Commitments

Employee Engagement:

Empowering employees through training & development to maintain standards & execute policies effectively.

Management Oversight:

Ensuring ISO 9001:2015 compliance with audits, corrective actions, and robust quality management implementation.

Process Optimization:

Monitoring key processes regularly to enhance efficiency & drive improvement through actionable reviews.

Resource Allocation:

Investing in equipment, materials, and workforce to consistently deliver outstanding, high-quality services.

Continuous Improvement:

Identifying opportunities to enhance processes, products, and services for sustained customer satisfaction and operational excellence.

Customer Satisfaction and Compliance:

Delivering innovative MEP services with zero snags while adhering to local regulations and quality standards.

Through these initiatives, ATCC remains committed to building a reputation for excellence in the industry, delivering innovative solutions, and fostering long-term relationships with clients and stakeholders.

QUALITY, ENVIRONMENTAL, HEALTH & SAFETY MANAGEMENT SYSTEM (QEHSMS) POLICY

Arabian Technologies Contracting Company (ATCC) has established an integrated management system policy to deliver exceptional quality services while ensuring the health, safety, and well-being of employees and stakeholders, conserving natural resources, and protecting the environment. This policy is aligned with the requirements of ISO 9001, ISO 14001, and OHSAS 18001 standards.

Commitment to Excellence and Compliance:

ATCC is committed to:

- Ensuring compliance with all applicable legal and regulatory requirements.
- Providing a safe and healthy working environment to prevent injuries, illnesses, and workplace hazards.
- Promoting sustainability by conserving energy, reducing pollution, and efficiently utilizing resources.
- Continuously improving our Quality, Environmental, Health, and Safety (QEHS) performance through proactive measures and innovation.

Commitment to Excellence and Compliance:

ATCC continuously reviews and improves working practices to ensure the highest standards of safety, health, and quality are upheld. This includes:

- Conducting risk assessments and implementing preventive measures to avoid accidents and injuries.
- Ensuring all employees are trained and competent in using equipment safely and effectively.
- Monitoring compliance through internal audits and taking corrective actions as needed.
- Regularly communicating our QEHS objectives and performance to stakeholders to uphold transparency and trust.

ATCC periodically reviews this policy to ensure its relevance and effectiveness in supporting the company's goals and its commitment to quality, environmental sustainability, and employee safety.

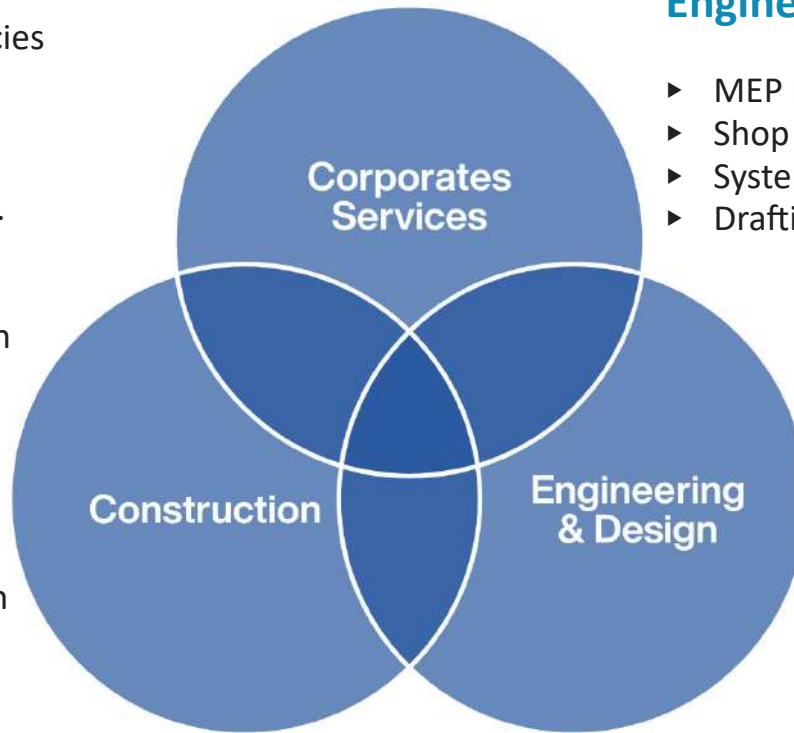

Operational Activities

Corporates Services:

- ▶ Corporate Policies
- ▶ Estimation
- ▶ Commercial
- ▶ Procurement
- ▶ Finance & Acct.
- ▶ Audit & Legal
- ▶ Admin & HR
- ▶ Communication

Engineering & Design:

- ▶ MEP Design
- ▶ Shop Drawings
- ▶ System Design
- ▶ Drafting

Construction:

- ▶ Contract Admin
- ▶ Expediting
- ▶ Safety
- ▶ Cost Control
- ▶ Quality Control
- ▶ Supervision

At Arabian Technologies Contracting Company, our operational activities are the foundation of delivering exceptional services and ensuring the successful execution of every project. We are committed to overseeing the entire construction process, from the initial procurement of materials to the final stages of project completion. Our operational focus is rooted in maintaining strict adherence to safety protocols, quality standards, and budget constraints at every stage of the project lifecycle.

Our dedicated teams work diligently to manage and streamline the supply chain, ensuring that all materials and resources are available on time and within the budget. We closely monitor project timelines to guarantee that each phase of construction progresses as planned, avoiding any delays or disruptions.

We place a strong emphasis on seamless communication and collaboration across all departments within the organization, including finance, human resources, and legal teams. This cross-departmental coordination allows us to maintain operational fluidity, enabling quick decision-making and effective problem-solving when needed. Our operations are specifically designed to comply with both industry regulations and the unique specifications of each client. By continuously evaluating and optimizing our operational activities, we enhance our efficiency, productivity, and overall performance. This relentless focus on operational excellence is integral to our goal of achieving long-term success and fostering strong, lasting relationships with our clients.

Our Services

Arabian Technologies Contracting Company (ATCC) specializes in delivering comprehensive solutions across various sectors, including HVAC systems, firefighting systems, fire alarm systems, electrical systems, and building management systems (BMS). With a focus on innovation and efficiency, ATCC offers design, supply, installation, testing, commissioning, and maintenance services tailored to meet client needs.

Our expertise extends to integrating cutting-edge technology and ensuring compliance with international standards. By prioritizing safety, quality, and sustainability, ATCC delivers reliable and customized services, contributing to the success of residential, commercial, and industrial projects.

Building Excellence Through Innovation

HVAC Systems

Delivering efficient heating, ventilation, and air conditioning solutions, including design, installation, and maintenance, ensuring comfortable environments with advanced systems and sustainable practices.

FIREFIGHTING SYSTEM

Providing reliable fire protection with expertly designed and installed systems, including fire pumps, sprinkler networks, and suppression systems, adhering to strict safety regulations and standards.

Enhancing Safety, Efficiency, & Sustainability with Integrated Solutions.

Fire Alarm Systems

Ensuring safety through advanced fire detection and alarm systems, featuring smoke detectors, control panels, and emergency wiring for rapid response and compliance.

Electrical Systems

Offering comprehensive electrical solutions, including high & low voltage systems, street lighting, & BMS integration, tailored for efficiency & project-specific requirements.

Building Management Systems (BMS)

HVAC Systems

Scope of Services

We offer end-to-end solutions for HVAC systems, ensuring top-quality design, supply, installation, testing, commissioning, and maintenance. Our expertise includes:

Air Conditioning: Residential, commercial, and industrial applications.

Ventilation: Efficient systems tailored to client needs.

Heating Systems: Advanced heating solutions for diverse environments.

Design and Engineering

- Heat load calculations using HAP, Block Load, and E-20 software.
- Preparation of comprehensive builder work, shop, coordination, and construction drawings.
- Compliance with ASHRAE standards and local regulations, including Dubai Municipality and Civil Defense requirements.

Execution & Installation

We specialize in the installation of various HVAC components, ensuring seamless operation and compliance with international standards:

1

Cooling Systems

- Air-cooled and water-cooled chillers
- VRV/VRF systems.
- Chilled water pumps and chemical dosing systems

2

Ductwork and Piping

- HVAC ducting with appropriate thermal insulation and sound attenuation.
- Chilled water piping installation.

3

HVAC Units

- Split units, package units, and DX systems.
- Fresh air handling units (FAHUs), fan coil units (FCUs), and exhaust systems.

4

Additional Components

- Valve packages, chemical dosing units, and pressurization units
- VCD/FD/NRD/split dampers and aluminum cladding works.

Testing, Commissioning, and Integration

We ensure optimized HVAC system performance through meticulous air balancing and seamless integration with Building Management Systems (BMS). Our testing and commissioning processes are thorough, ensuring system reliability, efficiency, and compliance with established performance benchmarks.

Our services extend to preparing detailed authority approvals, accurate as-built drawings, and comprehensive Operation & Maintenance (O&M) manuals. These crucial deliverables facilitate a smooth handover, ensuring long-term operational efficiency and sustainability of all installed systems. Our commitment guarantees systems operate at peak performance, meeting both regulatory and client expectations.

Specialized Equipment

Exhaust Fans, Air-Cooled Chillers, and Water-Cooled Chillers

Our team specializes in the installation and maintenance of exhaust fans, air-cooled chillers, and water-cooled chillers, ensuring optimal system efficiency and performance.

Air Handling Units (AHUs), Fan Coil Units (FCUs), and Package Units

We provide expert solutions for air handling units (AHUs), fan coil units (FCUs), and package units, optimizing air circulation and comfort in both residential and commercial environments.

Humidification and Dehumidification Systems

We offer customized humidification and dehumidification systems designed to meet specific client requirements, enhancing air quality and creating a balanced, comfortable indoor climate.

Our HVAC services ensure optimal system performance, efficiency, and reliability. We specialize in installation, maintenance, air balancing, and seamless integration with Building Management Systems (BMS). Additionally, we provide comprehensive testing, commissioning, and detailed documentation to guarantee long-term operational efficiency and client satisfaction.

Firefighting System

Scope of Work

Design, Installation, Testing, Commissioning, and Maintenance of firefighting systems, ensuring compliance with local regulations and safety standards.

Services Provided

- Preparing various drawings (builder work, shop, coordination, and construction drawings)
- Installation of essential firefighting equipment and systems.
- Sprinkler pipes, zone control valves, wet riser pipes, and sprinkler heads.
- Fire pump rooms, including networks, valves, control panels, alarm check valves, and NRVs
- Suppression systems: Clean agent, deluge, and pre-action systems.
- Breeching inlets, fire extinguishers, fire blankets, fire hose reel cabinets, PRVs, isolation valves, and landing valves.

Materials Used

Piping Materials: PVC, UPVC, PPR, HDPE, Steel GI, and Copper pipes.

Standards

All firefighting systems are designed to comply with local authority and safety regulations.

Fire Alarm System

Key Components

- Smoke and heat detectors.
- Alarm panels, sounders, and control wiring.
- Voice evacuation systems and firemen telephone systems.

At Arabian Technologies Contracting Company (ATCC), we specialize in the design, installation, testing, commissioning, and maintenance of advanced fire alarm systems integrated with building safety protocols. Our services include preparing detailed builder work, shop, coordination, and construction drawings for alarm systems. We handle the installation of essential components such as smoke detectors, manual call points, sounders, speakers, emergency and exit lights, fire alarm control panels, and more. Additionally, we provide the integration of suppression system control panels with other safety systems to ensure comprehensive protection.

We also manage the containment and cabling for alarm systems, voice evacuation systems, and firemen telephone systems. Our services extend to loop checking, circuit terminations, and system programming. After installation, we conduct thorough testing and commissioning, ensuring all components comply with safety regulations and authority approvals. As-built drawings and O&M manuals are delivered upon completion.

Standards

All systems are designed and installed in compliance with safety standards and regulations.

Integration

Fire alarm systems are integrated with other building safety protocols to ensure effective alerts and responses.

Building Management Systems

Enhancing Efficiency through Integrated Control Solutions

ATCC specializes in Building Management System (BMS) services that provide centralized control of HVAC, electrical, and safety systems, including fire alarms. Their solutions seamlessly integrate various building systems to optimize operational efficiency and reduce energy consumption. ATCC also offers comprehensive testing, commissioning, and performance tuning to ensure that all systems perform at their best.

The company employs advanced software for real-time diagnostics, monitoring, and predictive maintenance, allowing for continuous improvements in building operations. ATCC customizes solutions to meet specific building requirements, whether for commercial or residential properties. With a focus on efficiency and longevity, ATCC delivers reliable BMS services that ensure optimal system performance and energy savings across all building systems.

Testing, Adjusting, and Balancing (TAB) Systems

Scope of Work

ATCC offers comprehensive Testing, Adjusting, and Balancing (TAB) services to ensure proper airflow and water flow within HVAC systems for optimal performance. Their experts make precise adjustments to system components, ensuring they meet design specifications and industry standards. The service includes detailed air balancing and chilled water system flow tests to guarantee efficient operation and long-term reliability of HVAC systems.

Key Equipment Used

- Anemometers for precise airflow measurement.
- Hygrometers to monitor and control humidity levels for balanced air quality.

Applications

ATCC's TAB services ensure optimal airflow and water flow for HVAC systems in both commercial and residential buildings, promoting energy efficiency, comfort, and long-term system reliability.

Electrical System

Complete Electrical Solutions

At Arabian Technologies Contracting Company (ATCC), we provide comprehensive electrical system services, including the complete supply and installation of electrical components. Our offerings include preparing various drawings and containments (PVC & GI) and installing cable management systems, wiring, and earthing systems. We also install bus-bar trunking, switchgear systems, metering/instrumentation, and emergency power supplies, ensuring optimal performance and safety.

We handle lighting systems, disconnecting switches, lightning protection systems, and aircraft warning light systems. Our services also include rigorous testing, commissioning, and obtaining authority approvals. Finally, we deliver as-built drawings and operation and maintenance (O&M) manuals to ensure smooth operation and compliance with standards.

Low Voltage Systems

- Small power systems for buildings.
- Lighting systems, including emergency lighting
- MATV systems for communication & entertainment.

High Voltage Systems

- Cable laying, jointing, and termination up to 22kV.
- Installation of transformers, switchgear, and bus bars.

Plumbing Services

Arabian Technologies Contracting Company offers comprehensive plumbing services tailored to meet the demands of modern infrastructure. We specialize in the installation of advanced plumbing systems, including pumps, pipes, and water heaters, ensuring high standards of quality, durability, and efficiency. Our team is dedicated to delivering innovative solutions that cater to diverse project requirements while adhering to industry best practices. In addition to plumbing system installations, we excel in irrigation systems, water tank installations, and meticulous testing and commissioning processes. These services guarantee optimal performance and long-term reliability for every project. With a commitment to excellence, Arabian Technologies Contracting Company ensures that every solution is tailored to client needs, exceeding expectations and delivering results that set us apart in the industry.

Our Plumbing Services Include

We ensure top-quality workmanship and reliable performance in every aspect of plumbing infrastructure.

- Installation of all types of pumps: booster, transfer, submersible, circulation, irrigation pumps, etc
- Installation of all plumbing and drainage pipes: PVC, UPVC, PPR, Copper, and high-pressure pipeworks.
- Installation and maintenance of electrical and solar water heaters.
- Installation of all types of water tanks.
- Irrigation line works.
- Testing and commissioning of all plumbing and drainage systems.

Plumbing Solutions Across Diverse Sectors

Arabian Technologies Contracting Company caters to various sectors, including residential, commercial, industrial, and agricultural industries. Our tailored plumbing solutions address the unique needs of each sector, ensuring efficient systems, reliable performance, and adherence to industry standards, delivering exceptional results for diverse infrastructure and operational requirements.

Sectors **We Serve**

At Arabian Technologies Contracting Company (ATCC), we provide comprehensive mechanical, electrical, and plumbing (MEP) solutions across a wide range of industries. Our expertise enables us to deliver tailored services to meet the unique demands of each sector, ensuring efficiency, reliability, and customer satisfaction.

1. Residential and Commercial:

Villas and high-rise towers, including residential, office, and mixed-use developments.
Shopping malls, hypermarkets, showrooms, retail stores, banks, and IT data centers.

2. Infrastructure:

Airport terminals, lounges, metro stations, substations, district cooling plants, and sports complexes.

3. Education and Medical Care:

Schools, universities, hospitals, medical centers, pharmaceutical facilities, and clean rooms.

4. Hospitality:

Star hotels, clubs, lounges, restaurants, and industrial kitchens.

We prioritize quality, health, safety, and environmental sustainability, ensuring exceptional results in every project.

Project Overview

ATCC has successfully completed a diverse range of projects, including educational facilities, office buildings, and healthcare infrastructure across Jeddah, Yanbu, and Riyadh. These projects involved the construction of classrooms, housing, hospitals, and smart offices, all designed with a focus on modern architecture, functionality, and sustainability. Additionally, ATCC completed extensive renovations, enhancing the performance and aesthetics of existing structures, ensuring long-term durability and operational efficiency.

Completed Projects

1. English Language Building – KAAU, Jeddah
2. Voice Presidency Building – B, KAAU, Jeddah
3. Girls Student Classes – KAAU, Jeddah
4. Equestrian Club Buildings – KAAU, Jeddah
5. Economic Building – KAAU, Jeddah
6. Girls Housing Buildings – Royal Commission, Yanbu
7. Royal Commission Hospital – Yanbu
8. Smart Offices – Jameel Square, Tahlia Street
9. Renovation of 29th & 30th Floors – Fasaliya Tower, Riyadh
10. Student Classrooms Building – Ministry of Defense, Al Harj

Ongoing Projects

ATCC's ongoing projects focus on the construction of advanced educational facilities, office buildings, and infrastructure developments in Jeddah. These projects involve designing and building lecture halls, office spaces, and large-scale structures with modern amenities, aiming to enhance functionality and sustainability. The expected completion dates are scheduled for later this year.

1. Girls Lecture Hall Building-01 – Jeddah University
2. Girls Lecture Hall Building-02 – Jeddah University
3. Flypass – Amir Majed Park, Jeddah
4. Headquarter Building – Jeddah
5. Muntaza Offices Building – Tahlia Street, Jeddah

List of Electrical Equipment

Arabian Technologies Contracting Company (ATCC) provides a comprehensive range of survey, cable handling, termination, and testing equipment. Their inventory includes cable trailers, generators, welding equipment, and safety gear like water tanks and first aid kits. They also maintain a stock of essential tools, meters, and consumables for various construction and maintenance activities.

No.	Description	Quantity
01	Survey Equipment	5
02	Cable Trailer for 11kV	4
03	Cable Trailer for 33kV	4
04	Tools for Termination & Jointing	2
05	Generator (300kV, 250kV)	3
06	Small Equipment, Tool Consumables	3
07	Welding Generator	8
08	Gas Cutting Set	3
09	Water Tank (GRP)	3
10	Grumping Tool Complete set	3
11	Complete Tools for Riggers	4
12	Megger, Earth Tester	5
13	Multi Meter	6
14	Volt Meter	5
15	Caravan	4
16	Fiber Tank	3
17	Grinder 9	5
18	Yellow Jacket Paint	5
19	Hilti Drill Machine	8
20	Grinder 4	5
21	Nail Gun	4
22	Cable Detector	4
23	DC High Voltage Insulator Tester	3
24	Total Station Sokia	3

List of Air Conditioning Equipment

Arabian Technologies Contracting Company (ATCC) is well-equipped for both air conditioning and plumbing installations. Their inventory includes a range of tools for air conditioning work, such as welding machines, cutting and forming equipment, and scaffolding. For plumbing projects, they utilize PPR heating machines and pipe cutters, demonstrating a focus on modern and efficient techniques.

No.	Description	Quantity
1	Welding Machine	4
2	Threading Machine	4
3	Gas Cutting Cylinder Set	4
4	Foot Power Shearing Machine	4
5	Cladding Machine	4
6	Lock Forming Machine	4
7	Hand Folder Machine	4
8	Hydraulic Folder Machine	4
9	Hilti Machine	5
10	Drilling Machine	5
11	Ladder	6
12	Grinder Machine	4
13	Aluminum Scaffolding	6

List of Plumbing Equipment

Arabian Technologies Contracting Company (ATCC) provides a comprehensive range of plumbing equipment, including essential tools and machinery for various plumbing projects. Their inventory includes PPR Heating Machines, PPR Pipe Cutters, and HPP Heating Machines, among other specialized equipment. This diverse selection enables ATCC to efficiently undertake a wide range of plumbing tasks, from installation and repair to maintenance and renovation.

No.	Description	Quantity
1	PPR Heating Machine	5
2	PPR Pipe Cutter	8
3	HPP Heating Machine	3
